Clinical Access in the MSA

The Lasso Healthcare MSA plans don't have a network of providers, so you choose your health care services and providers. Most providers accept the MSA. Providers can decide at every visit whether to accept the Plan and agree to treat you; however, you cannot be denied emergency care due to your insurance plan.

MSA plans aren't as common as other Medicare plans, so it's understandable that some providers may not be aware of the Lasso Healthcare MSA. Lasso Healthcare is outreaching to providers across the US, educating them on the MSA, and why it is important they see you as a Lasso Healthcare MSA member. Thousands of providers already accept the Lasso Healthcare MSA, including some of the largest and most renowned systems. Some providers may be reluctant to accept the MSA and other high-deductible plan patients, as they believe the patients will not pay their portions of the service cost. Please pay any owed amounts to your providers timely and fully. Your cooperation in paying will ultimately help more providers accept more high-deductible plan patients.

Before you receive any services, we encourage you to share our detailed provider guide with your providers and confirm they will accept our Plan. Multiple printed copies of the guide are included in our enrollment and member materials, and it is also available electronically on our website. Providers may also call our Provider Services team for assistance; the phone number is on the back of your Member ID card, the Provider card and on our website.

You can get the most value out of your MSA plan by choosing Medicare-participating providers, as service charges for Medicare-covered services are capped at 100% Medicare Fee-for-Service (FFS) rates and count toward your plan deductible. If you see a Medicare non-participating provider, they may "balance bill" you, where allowed by state law, up to a "limiting charge" that may be higher than Medicare FFS rates; these excess charges are not reimbursed by the Plan and do not count toward your plan deductible. If you see a provider opting out of Medicare, this becomes a private contract between you and the provider; any service charges are not reimbursed by the Plan and do not count toward your plan deductible.

If your provider has any questions or is reluctant to accept the Lasso Healthcare MSA, please ask your provider to call us, or you may call us and request we speak to your provider. We will work with your provider and request they see you. You can also try to be seen as a self-pay patient. In this instance, you will pay for/be billed for the entire service. You then submit the claim/service information to us. We will determine if the amount you paid was within the Medicare-approved amount and apply the appropriate amount toward your plan deductible. If you have met your deductible, we will reimburse you the Medicare-approved amount. Once we process your claim, we will send you an Explanation of Benefits (EOB), which explains the processing of the claim and can be used to seek any reimbursement for overpayment.
